TeamConnect Ceiling 2 - Dante™ Firmware

Ceiling microphone array - Dante™ module: Audinate DANTE Broadway

There are two Dante variants of TeamConnect Ceiling 2 in the market. One is equipped with Dante Broadway and one with Dante Brooklyn 3 chipset. You can identify your variant with the Dante Controller (Device Info). Please use the correct Dante firmware file matching your hardware variant.

Dante Firmware version 1.5.0 - Release Date 2022-09-01

For conformity, consistency and compatibility reasons, we strongly recommend upgrading the system to the new release.

Update

• Version alignment from 1.4.7 -> 1.5.0

Firmware Update

• The Dante™ firmware update requires Audinate's Dante Controller software: www.audinate.com/products/software/dante-controller

Previous Releases

Dante Firmware version 1.4.7 - Release Date 2021-11-01

• Includes the new Audinate Dante Firmware v.4.2.6.4
• Dante input channel was renamed to "FarEndRef"
• Telnet/TFTP access was deactivated for security reasons

Dante Firmware version 1.3.0 - Release Date 2021-02-01

• Dante output channel 1 "OUT" renamed to "MainOut"
• Additional Dante output channel 2 "FarEndOut" added
  This channel is intended for recording purposes or for far-end transmission of audio data that is not processed by the voice lift algorithms.

Dante Firmware version 1.2.0 - Release Date 2020-05-13

• Includes the new Audinate Dante Firmware v.4.2.4.2
• Supports new Dante features like SMPTE 2110
• Dante factory reset now also resets the TCC2 Dante network settings

Dante Firmware version 1.1.0 - Release Date 2019-08-30

• Dante Model Name changed to "Sennheiser TCC2"
• Additional Dante input channel enabled "AEC Ref" (AEC reference channel)
• This update is necessary to make use of AEC Ref channel with TCC2 firmware ≥ v1.3.4
