

CUSTOMER SUCCESS STORY

# Singapore Repertory Theatre

Singapore Repertory Theatre improves access to productions with Sennheiser's MobileConnect

“The versatility of Sennheiser’s MobileConnect has made it so much easier to set up and deploy.”

Noor Hidayat Norzizan, Venue Technician, Singapore Repertory Theatre

## Challenge

Singapore Repertory Theatre (SRT) offers assisted performances that requires a robust and reliable system. Most tour guide systems focus on infrastructure, while the radio systems are often not as robust in terms of build, features, and sonic quality. Storing receivers also proved to be an issue due to space constraints.

## Solution

With Sennheiser’s MobileConnect, SRT can now have one base station and three access points servicing the system – one at the foyer and two in the auditorium. Through the MobileConnect App, the bring your own device streaming solution delivers audio descriptions to the smartphones of the blind and visually impaired, allowing them to better enjoy entertainment.

## FACTSHEET

|                           |   |
|---------------------------|---|
| <b>Products installed</b> | Sennheiser MobileConnect  |
| <b>Country</b>            | Singapore   |
| <b>Region</b>             | APAC  |
| <b>Industry</b>           | Theatre   |
| <b>Profile</b>            | Singapore Repertory Theatre (SRT) has been a dedicated player in Singapore’s theatre scene since 1993. It is one of the few theatre companies in Singapore that runs a fully furnished theatre, KC Arts Centre – Home of SRT. With a seating capacity of 380 and an intimate ambiance, the theatre is ideal for performances, talks and corporate events. |
